

# NU-FORM FIRE UK CASE STUDY

## Key Project Criteria

Case Study Ref:	NFF-06
Project:	NFT Distribution
Value:	£ 750,000.00
Design Standard:	LPC Rules incorporating BS EN 12845

## **New Coldstore Warehouse ESRF Ceiling Sprinkler Protection**

Nu-Form Fire UK were awarded this contract and again proved their reliability for performance and quality workmanship.

The warehouse stores over 100,000 pallets in areas with varying controlled temperatures.

A combination of ESRF and standard sprinklers are provided throughout the 130,000 square ft building.

Special protection is provided to sprinkler heads and piping where exposed to temperatures below 4°C.
